

Rube Goldberg Inspired Marble Run

Rube Goldberg was a famous cartoonist, artist, author, engineer and inventor who really thought outside the box. He invented complex machines that inspired games that we still play today, like Mouse Trap. We challenge you to recycle or make use of materials around your home to create a marble run.

These are some ways you could make a Marble Run using recycled materials or even playdough. Have a look to see what you may have lying around your home. You might think of some other ways to create your own Marble Run. Be creative and have fun!

We can't wait to see what you can come up with.

This boy has used Duplo and Pool Noodles to help create a Marble Run. Look how tall it is!
