Term 1 Distance Learning Begins Mon, 15 Feb

From The Principal

Kia ora koutou

I know that distance learning is not something any of us were looking forward to by any stretch of the imagination, but we find ourselves launching back into it today. We will once again using the Google Classroom platform that many of you will be familiar with from last year.

Our aim is simple - to provide a meaningful, engaging and flexible programme to support our tamariki and families at home during the lockdown. To be clear, it is an imperfect model. We cannot hope to replicate the experience of being in a class at school, but we've given careful consideration to how we integrate some of the key principles of the MENPS vision and approach to teaching and learning within the constraints placed on us.

A key message I would like to emphasise, as before, is to keep expectations of yourself and of your child realistic. This is not a homeschool programme or a 'virtual school', and you should not feel the pressure to assume the role of full-time teacher'.

Above all, we appreciate that all families will have their own pressures and commitments, particular for those working from home, and recommend that you approach and implement the programme in a way and on a schedule that works for you. Learning takes many forms, including experiences and passions beyond the materials we provide, and you know your child best. Selecting tasks and completing whatever you are able to is fine.

Please take some time to read the information below and let us know if you have any problems or anything is unclear. Your child's teacher is available via email should you have any specific questions about the programme, and our role is to help support your child's learning as best we can in the current circumstances.

If you do not have a device you can use during distance learning, please email: admin@mteden.school.nz, including your child's name and room number.

We will be tracking daily updates and advising you of any developments, and hoping for a return to classes later this week. Until then, stay well, stay safe and thank you for the collective effort. I have no doubt we will approach the current challenge with the same patience, resilience and sense of community as we have before.

Ka kite anō au i a koutou

Principal

MENPS Distance Learning - Information for Parents

————— **MENPS** · DISTANCE LEARNING —————
Login • Check In • Schedule • Share Back • Celebrate

The MENPS distance learning programme is designed to be as self-explanatory and self-directed as possible, but please let us know if you have any questions or need additional support.

Key Principles of the programme:

- **Work at your own pace** - we appreciate that parents may want to select parts of the programme, or aim to complete as many tasks as possible. This is a temporary mode of teaching and learning, and it has obvious limitations and challenges. Above all, we encourage you to be realistic in terms of the expectations you place on yourself and your child in order to achieve a balance and a schedule that is right for you and your family
- **Keep it fun** - you will have access to a range of tasks. Some of these will be more 'drill and practice', maintenance type tasks, while others will be geared towards topics to inquire into. We aim to provide a range of material, and encourage you to consider

prioritising tasks that your child feels confident completing and is motivated and excited about, rather than a chore or a level of challenge they find daunting or demotivating

- **Aim for self-direction** - we will be working to tailor programmes to meet the children's needs. You can assist by supporting, facilitating and be as involved as you are able to be, but the programme doesn't need to be run as a homeschool model, and you should not have to assume the role of the class teacher as in a school classroom. We appreciate that many parents have ongoing work commitments themselves, so try to use the programme in a way that encourages independence as much as possible
- **Balance screen time** - we believe it is important to try to include aspects of the MENPS approach to teaching and learning as much as we can, encouraging independence, inquiry and discovery. You will also find that while there will be digital content, many of the tasks are designed to be completed 'offline', which is strongly encouraged. Our programme is not designed or intended to glue children to a screen all day
- **Keep in touch** - working in isolation will be a challenge for children, teachers and parents. There will be a daily video from your child's teacher, suggestions for items the children can share back for comment, and please email your child's teacher if you have any questions. In the event distance learning continues for an extended period of time, we will be considering other ways in which we might be able to create groups, connections and a sense of cohesion for the children within each class

Getting Started

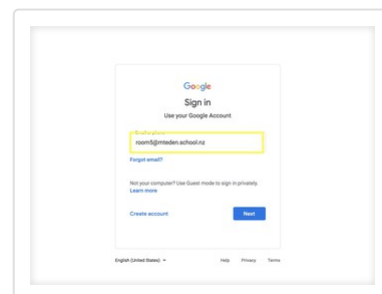

1. Visit the link (directly below) to access the 'Home Learning' page on our website. Select the 'Click here to login to MENPS Distance Learning' button to be directed to the login page (we recommend bookmarking the page):

 **Home Learning | menps**

www.mteden.school.nz

1. Login

Our distance learning materials are available via Google Classroom. To access this, simply enter the email login and password for your child's room (eg: room2@mteden.school.nz). Your password should be included in this email (above), but please contact your child's teacher if you have any difficulty logging in.

(If a welcome screen opens asking if you are a teacher or a student, click student)

2. Check in

Once logged into the Google Classroom, click on 'Classwork', where the teacher's video clip and weekly tasks can be viewed.

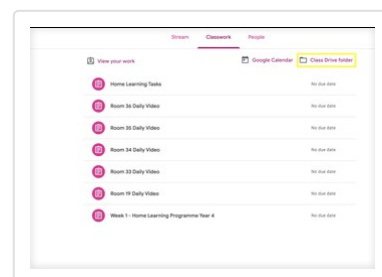

3. Set up a schedule

Go over the tasks and instructions, agree activities for the day and discuss any materials/resources that may be needed

4. Share Back

The programme includes some items the children are invited to share (these are colour coded in the programme notes). Documents, images and other files can be uploaded into the named folders in each Google Classroom. Look for the 'Class Drive' folder as shown below:

5. Celebrate

Set aside some time for your child to share what they have achieved for the day. What did they enjoy? What did they find hard? What was easy? What are they most proud of? What are their goals for the next day?

English Language Learners and Learning Support

The programmes for each year level are designed to include a range of challenge to suit children with differing needs. If your child has an identified learning support need that might require additional provision, however, the class teacher will email you directly to advise on how the programme might be adapted to better suit their needs.

Parents of children in Years 2-6 who are new to English will be given access to a specialised 'ESOL' Google Classroom, which they can use instead of/in addition to the regular distance learning programme.

Frequently Asked Questions

How long will distance learning be in place?

At this stage, Level 3 is scheduled for 3 days

Does my child have to complete all the activities?

No. The activities are designed to be self-paced. Part of your role as a parent will be to determine a schedule for your child and set some 'must-do' and 'can-do' tasks, at your discretion

What if I am concerned about screen time?

These are extraordinary times, and we are operating under unprecedented constraints. Each distance learning programme is designed to offer a balance of online and offline activities, however. All screen time is not equal, particularly when it engages with learning. We encourage you to set limits and help select a variety of tasks for your child.

What if I or my child needs clarification or has questions?

Please contact your child's teacher via email (see the staff contact list below)

Will the teacher be video conferencing children individually/in groups/as a class?

We will be returning to a group video conference schedule as soon as possible. Details for this will be posted to your child's google classroom

Will my child receive feedback on their learning?

Items that are uploaded/shared into the Class Drive folders within Google Classroom can be commented on by the teacher or teachers, which they will be engaging with regularly during distance learning. Some other online tasks will give feedback in real time

What if my child has specific learning needs?

Most of the distance learning activities will be differentiated to allow for a range of needs. Parents of children who have specific learning needs that may require some adaptations to the programme or suggested alternative activities will be emailed directly by the class teacher

What if I and/or my child is new to speaking English?

Google translate is not always perfect, but may be a useful tool to support those learning English. For those very new to English, alternative classes have been set up online, and you should receive an email soon with further information on this, available in both English and Mandarin

What if I would prefer my child to engage in other projects at this time?

We leave that decision up to parents, but encourage you to go over the weekly programme, consider how you might get your child as involved as possible in a way that works for you and your family, and talk to them about your expectations and their progress. It is important to try and ensure learning does not become a chore for children or for their parents, so getting this balance right will not look the same for every child
